Where this fits

Here I look at who else sells the product from Assignment 2 to the buyers from Assignment 1, and what we can learn from a bigger competitor. The findings decided the price and selling points in the Assignment 3 listing.

1. Who our competitors are

- **Direct:** Daraz sellers, Markaz resellers, OLX sellers and Instagram gift pages selling kids makeup kits and pouches.
- **Indirect:** MINISO Pakistan (cute beauty items and accessories in malls) and general toy shops.

2. Competitor comparison

Competitor	Where	Price seen	Strengths	Weaknesses
Daraz kids makeup kit sellers	Daraz.pk	e.g. Rs 589 on sale (was Rs 1,099)	Huge traffic, buyer trust, vouchers	Generic titles, plain photos, no gift feel, hard to stand out
Markaz resellers	Markaz app and reseller pages	Varies by reseller	Cash on delivery, many people pushing the same items	Same product everywhere; a buyer review complains of missing or broken items and a high price
OLX sellers	OLX	Rs 449 to Rs 2,199	Cheap, local pick-up	No brand, low trust, no returns
Instagram gift pages	Instagram DMs	Around Rs 1,200 per "deal"	Reels, personal touch	No checkout, slow DM replies, prices hidden
MINISO Pakistan	Mall stores and online	Varies	Strong brand, cute character products, shop experience	Not focused on kids gift pouches; higher price on many items

Trinket Tales against the usual seller

Feature	Daraz sellers	Instagram pages	Trinket Tales
Own website with checkout	No	No	Yes (Shopify)

Feature	Daraz sellers	Instagram pages	Trinket Tales
Cash on delivery	Yes	Yes	Yes
All colours shown clearly	Sometimes	Sometimes	Yes, photo per colour
Full contents listed honestly	Sometimes	Rarely	Yes
Gift-ready look and brand	No	Sometimes	Yes
Safety notes (age, patch test)	Rarely	Rarely	Yes

3. SWOT for Trinket Tales

Strengths	Weaknesses
Cute brand and logo; gift-ready product; own store plus Instagram; honest, clear listing	New brand with no reviews yet; depends on supplier stock; small marketing budget

Opportunities	Threats
Eid and birthday seasons; bulk return-gift orders; adding bracelets and bag charms later; reels and packing videos	Price wars on Daraz; same product sold by many; courier delays and refused COD parcels

4. Case study: MINISO

I chose MINISO because it sells the same kind of thing we do (small, cute, low-price beauty items and accessories), it is in Pakistan, and it grew from one store into a global brand.

Background

- Chinese lifestyle retailer; opened its first store in mainland China in 2013, co-founded by Ye Guofu.
- Sells low-priced, design-led small items: beauty, accessories, toys, stationery and gifts, often with cartoon or film character collaborations.
- Listed on the New York Stock Exchange (filed in 2020) and on the Hong Kong Stock Exchange in July 2022 at HK$13.80 a share.

Size and growth

Measure	Figure	Period
Total stores	7,780	31 Dec 2024
Total stores	8,485 (705 more than a year earlier)	31 Dec 2025
MINISO-brand stores outside mainland China	3,583	31 Dec 2025
Full-year revenue	RMB 21,443.8 million (about US$3,066 million), up 26.2%	2025

MINISO in Pakistan

- First Pakistani store opened in 2017, and the brand reached 45 stores within two years (Profit, 2019).
- In an interview with Dawn's Aurora magazine, a MINISO executive said the company had 68 stores in Pakistan, 34 of them operating in 11 cities.
- Partnered with Jomo.pk to sell online in Pakistan (Business Recorder).

What MINISO does well

- **Low price, high fun.** Most items are small impulse buys, so people pick up "just one more".
- **Always something new.** A fast flow of new products gives people a reason to come back.
- **Presentation.** Clean, cute shop design; it has even refreshed stores with a pink theme and bigger character zones.
- **Character collaborations.** A normal item feels special with a well-loved character on it.
- **Going online.** In Pakistan it added e-commerce through a local partner instead of relying only on malls.

Lessons for Trinket Tales

- Keep the price small and the experience big. That is exactly our line: Small things, big happiness.
- Post new colours and small "drops" regularly on Instagram so followers keep checking back.
- Presentation sells: even photos, a soft pastel feed and a pouch that is ready to gift.
- Build our own cute brand look instead of borrowing famous characters, since we do not hold any licence.
- Be online first: Shopify for checkout, Instagram for reach.

5. Decisions taken into the listing (Assignment 3)

Finding	Decision
Market range is about Rs 449 to Rs 2,199	Price Rs 1,200 with a compare-at of Rs 1,500: not the cheapest, but clearly better presented
Competitor listings hide contents and colours	Show every colour with its own photo and list exactly what is inside
Buyers search for gifts (Assignment 1)	Write the description around birthdays, Eid and return gifts
DM-only shops reply slowly	Shopify checkout with cash on delivery, plus quick WhatsApp confirmation
Big brands win on presentation (MINISO)	Use our logo colours across the store, photos and Instagram

How all four assignments connect

Assignment 1 - Keyword & Niche Research: finds the niche and the words buyers type.

Assignment 2 - Product Hunting: picks the product that fits those words, plus the supplier.

Assignment 3 - Product Listing: puts that product on our Shopify store using those words.

Assignment 4 - Competitor Analysis & Case Study: studies who else sells it, and feeds the price and positioning back into the listing.
