Trinket Tales: final hand-in

Student: Kanzul Eman. Instructor: Adeen Amjad.

1. What you hand in

File	What it is
`Trinket-Tales-Complete-Project.pdf`	All four assignments in one file, 16 pages. Hand in this one.
`00` to `04` PDFs	The same five parts as separate files, in case your teacher wants them one by one.
`00` to `04` Word files	Only needed if you want to change something.

All files are in the `assignments` folder.

2. Before you submit

1. Fill in your Roll No. and Course. They appear on the first page of each of the five files. The easy way is to send them to me and I'll fill them in and send back the final PDF.
2. Add two screenshots:
    - Assignment 3, section 3: your live kit page. There's an empty box for it.
    - Assignment 2, end of section 5: DSers > My Products, showing both products.
3. If you edited the Word files yourself, save them as PDF again.

4. Last checks on the store (on your phone)

The full fix list from the store review, with texts to paste, is in `store/STORE-FIXES.pdf`. Quick checks:

- [ ] No `%}` text anywhere on the home page. See the fix in the chat: delete the extra `%}` at the end of 3 files.
- [ ] Welcome card: the small heading says "Welcome to", and the items you want are there.
- [ ] Flower bead bracelet set (from DSers):
  - Tags: `bracelets, dropship`. Remove `kids-makeup` if it's there.
  - Short title, e.g. `Boho Flower Bead Bracelet Set`.
  - A price that covers its cost in DSers plus shipping.
- [ ] Kit page says 10 to 20 working days. A bracelet from your own stock says 3 to 5.
- [ ] Prices show as Rs 2,999, with no decimals.
- [ ] At checkout you see Cash on Delivery and Advance payment.
- [ ] About Us, FAQ and Contact open from the menu.
- [ ] Shipping, Refund, Privacy and Terms are in the footer.
- [ ] Test order #1002:
  - Don't place it in DSers, or AliExpress will charge you for a real order.
  - Cancel it in Shopify: Orders > #1002 > More actions > Cancel order.
- [ ] Store password: either remove it by picking a plan, or give the password to your teacher along with the link.

5. After marks

- Change your Shopify password, since it was shared in the chat.
- Turn on 2-step verification: tap your name at the top right of Shopify admin > Manage account > Security > 2-step authentication.
